- Purchasing Power **believes in disciplined spending limits and pay back periods.** Purchases are limited to \$2,500 and progress to \$4,000 for those earners above \$60,000.
- Purchasing Power **provides your employees with a responsible employee purchase program** and offers a sensible approach to credit card impulse buying with years of repayment.
- Program is available to all eligible employees.

- Purchasing Power **does not charge fees** beyond the All Inclusive Price.
- No More Fees - not even if your employee goes on leave of absence.
- 35% of credit card accounts incur a late fee every year.

Credit card companies earned **\$7.4 billion in annual late fees in 2006. - GAO-06-929*

- Most retailers only provide the price of the product before tax and finance charges and they may or may not include delivery charges.
- Purchasing Power reveals the total price up front with no additional or hidden fees or taxes.
- Purchasing Power's products include value-added features like extended warranties, upgrades and accessories that we have negotiated with our vendors...all included in the price.
