"I needed new glasses and went to several vision centers. Realizing I was about to part with \$425, I decided first to buy your vision plan. Immediately, I saved over \$170. I can't wait to see how much I save the next time I go to the dentist or chiropractor."

Houston, TX*

"I am on a maintenance drug that I was purchasing at the local pharmacy. For a three month supply, the cost was \$107.67. With the [mail order] program, I am now spending \$43.42 on the same amount. This equals an annual savings of \$257.00. I am confident that I will see additional savings when the need arises to use the other available plans."

Jamestown, PA*

"My wife and I went to the dentist and were told that for the work she needed to have done on her teeth, the total cost would be somewhere in the neighborhood of \$8,000. I went back to the billing office and showed them my card...the bill was reduced by \$1,600. I do think it [this plan] is a tremendous help when insurance is not available."

*Daniel S. G
Arlington, TX*

"Your representative gave me instructions, step-by-step what to do. We were able to take \$365 off our \$1650 bill. This is a large amount for us because we had no other coverage."

*Amelia B
Hawthorne, CA*

"I am so pleased with your vision plan. We saved a total of \$338 on lenses, frames and eye exams. The best part was the money savings; but not to be overlooked, we were treated pleasantly and our business was appreciated. We look forward to using your plan again."
